Future is coming
The tears come to your eyes
Cry to release the truth

New colours allowed
There's no need to be right
Happiness to be painful

Come on stay sober
As I saw you
Overwhelmed

You choose the way
To split the world
And turn it on

(Chorus)
You're still falling
Where coming from nowhere
Timeless is truth
Like you

Future is coming
The tears come to your eyes
Cry to release the truth (2X)

Coming from nowhere
Like you, like you! (2X)
