Looking back in time like it's was yesterday
My uncle travis was killed, they took his breath away
My grandmother so strong, they took her best away
To all my fallen soldiers, you in a better place
I'm bout to roll one up and let the record play
We all like pac, hoping for better days
The love for my family, it never fades
No matter how far gone, we never stray
Keep your head up high my nigga, let's get paid
Musical pain, that's how the best get made
I know how it feels to live in section 8
I'm praying to god that I can catch a break
Bubble kush seem to help this depression state
These politicians all jokes, it's recession hey
I wanna fly up high and leave this mess away
But right now I'm here to leave you with this mess
saying

[Hook]

Take be back in time when I fell in love with you
I will never forget how I felt when in love with you
So just take me back in time, and I'ma show to you
There was no drama, no stress, no pain,
Just me and my friends, take me there

Yo I remember stuffing paper in the top of cassettes
To record them and to see who can rocket the best
Turn the mike up loud to get my mama upset
And get mad when she took it cause I â€¦a rest
Where the â€¦ well in doubt is a hip hop child
Where the fuck you think I got my style?
Still remember how, I used to ball at the park
And reck, jump shot, hit my art is net
Had the pat ewings, sway, black blueing
Prom time, dions with the straps to them
We act cool and, I saw my brother strap moving
Under the seat, of the â€¦supreme
My other brother was me, he was rushing emcee

It was inspiration, to discover my dream
How I feel to have pretty girls loving the team

Yeah I remember that

[Hook]

Take be back in time when I fell in love with you
I will never forget how I felt when in love with you
So just take me back in time, and I'ma show to you
There was no drama, no stress, no pain,
Just me and my friends, take me there

Dealers up in heaven smiling
Pockets next to them wiling
God forbid when my time is
I'll find a spot right on martin and â€¦island
No propaganda, no paparazzi
Not worried bout fame, god got me
Still hold the same values my pop taught me
And kept the same attitude my mom's taught me
Let's take it back to adolescence,
When lyrics free minds when, rap had a message
See in these times we need leaders
And more dreamers
No hate, less police and more teachers
Less violence, more peace and more regions
More thoughts from great minds for more thinkers
Just a tiny bit of love get rid of the demons
I say a prayer for the future
The worlds needs us

[Hook]

Take be back in time when I fell in love with you
I will never forget how I felt when in love with you
So just take me back in time, and I'ma show to you
There was no drama, no stress, no pain,
Just me and my friends, take me there.
