### "The Hard Way"

Visit "[The Hard Way](#)" on MotoLyrics.com

You've got your own way of looking at it baby  
I guess that proves that I got mine  
Seems like our hearts are set on automatic  
We say the first thing that comes to mind  
It's just who we are baby  
We've come too far to start over now  
I know what you're thinkin'  
I'm not always easy to be around

Chorus:

But I do love you  
You keep me believin' that you love me too  
And I know it's true  
This love drives us crazy but nobody's walkin' away  
So, I guess we'll have to do it the hard way

If I had myself a little genie in a bottle  
Three wishes I could wish for us  
I wish we'd live forever and get along together  
Turn these tempers into trust

[Chorus:]

Do it the hard way

It's just who we are baby  
We've come too far to start over now  
Believe me tonight love's the one thing in life we can't  
live without

[Chorus:]

Do it the hard way
