It's hard to read between the lines when they've been
fucking deleted. For the lying is a seed and you're
sowing fields. Denial is so beautiful when the flowers
wither and die peacefully. Sweet surrender.

Brand yourself on your own. I won't assist you so brand
yourself on your own. Brand yourself on your own. I
resist. You brand yourself on your own.

harvest a dream, a product sold to the weakest bidder.
Signed sealed delivered and poured into another
screen. Eliminate a bag of doubt that you can bury
deeper and hide peacefully. Sweet surrender.

No lesson learned as long as your're the preacher. No
tables turned as long as you you design. You design
everything that I'm breaking down. There's no guilt as
long as innocence is weaker. And no sense undefined,
no sight for the blind just strategy. Follow the leader!
Brand yourself on your own. Leader - I resist
