Welcome in, The night moon  
The sickle stare  
Twilight in full bloom  
I can see at night

Eyes-of, Glow-ing, jewels  
Scences, All-in, Tune  
Rolling, Thunder, June  
Crouching, Hunting, You

You can run  
I need nothing, No sleep  
Run all night, Fatigued  
Quench my thirst, Hungry now

Predators of night seek  
All which runs from me  
Under cover of darkness  
I am creeping night

I would pull you under  
The slow and the lame  
I can silence your heartbeat  
You are the game

Eyes-of, Glow-ing, jewels  
Scences, All-in, Tune  
Rolling, Thunder, June  
Crouching, Hunting, You

You can run  
I need nothing, No sleep  
Run all night, Fatigued  
Quench my thirst, Hungry now

Humans breath, Heavily, Night star  
Enemies Sceice, You have me, Night star  
Sleep my child, Sleep my morningstar
