verses

darling you're my only love  
the only one i'm thinking of  
you locked me out  
all night and i never came back  
the time that you let me down  
there's a time for everything now  
there's a time for everything

chorus

i caught you sleeping with my only friend  
i cant use your love  
you gave your body to another man  
i've been used by love over and over again  
over and over again  
you shut me out  
and i wave goodbye  
and this is the end  
i wave goodbye
