Words fall slowly, silent on the ground
You don't know me at all
So catch me quietly, we don't need a sound
Listening to you, as you

Hook me up and watch me still
Just stay with me
You need to make me feel
That I've got somebody, so don't leave me

Lie with me like you lie to me
Show me that my heart can still touch
Still breath, from the inside

Show me, do you dare to unfold me?
You wanted it all, now I'm giving it all
From the inside

Can you walk through me, unlock me inside?
You don't get me at all
But please be careful, don't let us collide
I break easy, as you

Hook me up and watch me still
Just stay with me
You need to make me feel
Like I've got somebody, so don't leave me

Lie with me like you lie to me
Show me that my heart can still touch
Still breath, from the inside

Show me, do you dare to unfold me?
You wanted it all, now I'm giving it all
From the inside, from the inside
From the inside

Hook me up and take me
Somewhere we can be
You need to make me feel
That I am somebody, so don't leave me

Lie with me like you lie to me
Show me that my heart can still touch
Still breath, from the inside

Show me, do you dare to unfold me?
You wanted it all, now I'm giving it all
From the inside, from the inside
