Lollipop, razorback, buzzcut  
Penny-wise, pound-fool King Tut

Three of the things I love the most:  
Charlie's Angels, Marley's Ghost

Spin the dime. Now hold them, fold them  
Turn the table, make it golden

Three of the things I love the most:  
Charlie's Angels, Marley's Ghost

People tell me that I should live lost like helter skelter's  
ride  
Buck up; suck up; pack up; chin up; rolling, rolling,  
rolling rawhide  
Everybody, everybody, everybody, everybody wants  
me to make them feel good  
Heart of glass, heart of stone, backbone, backwood,  
backdoor, make them feel like they should

People tell me that I should live lost like helter skelter's  
ride  
Buck up; suck up; pack up; chin up; rolling, rolling,  
rolling rawhide  
Everybody, everybody, everybody, everybody wants  
me to make them feel good  
Heart of glass, heart of stone, backbone, backwood,  
backdoor, make them feel like they should

Yeah, you don't know anything but gr-gr-gr-greed  
Pawn the kids, sell the tractor to buy your trusty steed  
They don't know anything but gr-gr-gr-greed  
Pawn the kids, sell the tractor to buy your trusty steed
