Door's open, come on in and sit a spell
Door's open, come on in
Door's open. come on in and sit a spell

Throw your trouble down the well

You said I could come on in
See light on the night

And your . . .

In the quiet still of night, you said I could come to life
In the quiet calm of day, you said I knew what to say

You said I could come on in
See light on the night

And your . . .

Door's open come on in and sit a spell
Door's open come on in
Door's open come on in and sit a spell

Throw your trouble down the well

You said I could come on in
In the quiet still of night, you said I could come to life
In the quiet calm of day, you said I knew what to say

Door's open come on in and sit a spell
Door's open come on in
Door's open come on in and sit a spell

Throw your trouble down the well
