You to sing to me
and I song to you

I'm standing here now
I've got you

My bestfriend ang all time partner
I've been waiting for you

I miss you bestfriend
Wish you comeback

With a smile on your face
Wish you comeback

Standing on the bridge
Watching you alone

I have been waiting for you
Everytime I saw you

Tears fall down and let me cry

Everytime I saw you...

I miss you bestfriend
Wish you comeback

With a smile on your face
Wish you comeback
