Put your hands up
This is a stash up
Pull the trigger and your gonna get mashed up

Put your hands up
This is a stash up
Pull the trigger and your gonna get mashed up

Put your hands up
This is a stash up
Pull the trigger and your gonna get mashed up

Put your hands up
This is a stash up
Pull the trigger and your gonna get mashed up

Check your ass
Smoke grass and if you in the pack then you gonna get passed
Better pass me that bong
The nite is short and ive been waitin to long
To enter into another demension
Pull the smoke into my lungs
And release the tention
By the way did i happen to mention
How stash operates
So start the dissection

1 2 don't forget your crew now
3 4 sit facin the door
5 6 never know when it hits
7 8 it's gonna be too late

Put your hands up
This is a stash up
Pull the trigger and your gonna get mashed up

Put your hands up
This is a stash up
Pull the trigger and your gonna get mashed up

Put your hands up

This is a stash up
Pull the trigger and your gonna get mashed up

Put your hands up
This is a stash up
Pull the trigger and your gonna get mashed up

Now i don't give a fuck
Not a single fuck
Not a single solitary fuck
'cause i don't give a fuck motherfucka

Now i don't give a fuck
Not a single fuck
Not a single solitary fuck
'cause i don't give a fuck motherfucka

Ring the alarm
And now the sound is dying
Ring the alarm
And now the stash is creeping

Psychological
Past diabolical
Incrypted in code biological
I checked it
Inadaquetly defected
Or maybe just slightly misdirected

Murder by numbers
Straight outta the clubbers
Step into my suffer and your 6 feet under
Do a dance and let her know that your feelin it
Locked up up 'cause you know how we feelin it

Hyropaunics
Super bionic
My **** and my bombs are atomic
Step to the mat with your monkey ass
Better take cover 'cause were ready to blast

Now i don't give a fuck
Not a single fuck
Not a single solitary fuck
'cause i don't give a fuck motherfucka
