

Paul rai "Valentines Day"

Visit "[Valentines Day](#)" on MotoLyrics.com

Fancy dresses, beautiful faces
I see in the street and everywhere
those flowers look fresh & smell so good
all the places decorated in red

Chorus:

Let's celebrate Valentines day
For all the love in our life
I always loved you from the first sight
You are the one love of my life.

today is the day all the lovers celebrate
to show that how much they mean to each other
to that young lady who I knew since my school days
This is something I want to say

Chorus:

Let's celebrate Valentines day
For all the love in our life
I always loved you from the first sight
You are the one love of my life.

Love is always being made from the grace of the God
which last forever in immortal bliss
Each man and woman shows how much they care.
To express this love with a kiss.

Chorus:

Let's celebrate Valentines day
For all the love in our life
I always loved you from the first sight
You are the one love of my life.
