Iâ€™m scared to die but maybe
A faithless bribe could save me
A touch, I bruise too easy
She stole the scene to see me

Her hair it bleeds and bleeds for you
As blood runs east
Sheâ€™d lay the fees
And offers please she offers

Follow baby we gon live forever baby
Woke up deep deep deep deep

Sheâ€™s scared to see, so humble
No food to eat we follow
But after sleep weâ€™re to the
The forest field she said

Follow baby we gon live forever baby
Woke up deep deep deep deep
