[Verse]

it's a summer's day and the sun is blazing
percolating bodies, barely contained

innocence was not our game
our parents had been the same
for a second you were my flame
it's our secret

[Chorus]

I'm hot for a summer fling
no promises of where it'll lead
when September comes, it won't sting
cause baby, it's just a summer fling

[Verse]

weekend trips
skinny dip
at a pool party

hide away
in the room upstairs

yeah!

I don't think that this will last
complications back in class
hope your heart's not made of glass
it's our secret

[Chorus]

I'm hot for a summer fling
no promises of where it'll lead
when September comes, it won't sting
cause baby, it's just a summer fling

[Chorus Relief]

let's go
the party's started
at midnight it goes

no slipperâ€™s left
and I donâ€™t need a ring
cause baby, itâ€™s just a summer fling

[Bridge]
bodies rockin'
dance is shocking
caught in mid air

flash of your skin
has left me singed
perspiration is there

donâ€™t sweat it, boy
weâ€™ll take it slow
melt your defenses

just let it goâ€¦

[Chorus]
Iâ€™m hot for a summer fling
no promises of where itâ€™ll lead
when September comes, you know it wonâ€™t sting
cause baby, it's just a summer

uh ohâ€¦

summer flingâ€¦
just let goâ€¦

oh boyâ€¦
donâ€™t you know

when September comes, you know it wonâ€™t sting
cause baby itâ€™s just a summer fling
