[Verse]

I can see it clearly  
you're dropping all those hints  
hide and seek with feelings  
you don't approve of who I am

[Lead-in]

it's a long road ahead  
we have to travel light  
and there's no room for baggage  
is it any surprise  
that I've left you behind

[Chorus]

nature creates as it intended  
each of us their own dimension  
don't try to change me  
from who I am

pigs will fly  
and frogs fall from the sky  
before I change my mind  
of who I am

[Verse]

the smug will sit there and roll their eyes  
thinking they've got it all figured out  
it's not that hard

this is a mistake  
I know best in this case  
you can't be serious

[Lead-in]

it's a long road ahead  
and there's no time to fight  
if there's nothing to say  
then I'll just say goodbye

[Chorus]

nature creates as it intended

each of us their own dimension  
donâ€™t try to change me  
from who I am

time will prove whose strongest  
bottle me up, Iâ€™ll shoot like a rocket  
thereâ€™s no denying  
who I am

[Bridge]  
donâ€™t try to catch me  
weâ€™re miles apart  
you speak without listening  
and thatâ€™s given me a great head start

â€™causeâ€¦

[Lead-in]  
itâ€™s a long road ahead  
we have to travel light  
and thereâ€™s no room for baggage  
is it any surprise  
that Iâ€™ve left you behind

[Chorus]  
nature creates as it intended  
each of us their own dimension  
donâ€™t try to change me  
from who I am

take these shoes youâ€™d have me walk in  
on this ballot, just one option  
read my lips, this is  
who I am

[Finale]  
donâ€™t be sad  
rifts can mend  
our paths may cross  
again
