Raindrop hits the edge of the time there comes more
From the porch to the ceiling makes it's way down to
the floor

But I won't worry you won't see I'm right by you, and
you by me

As we wake up the night as the thunder roars

Your staircase can never teach me more
Like a life I climb I fall just to step once more
You tricked me fooled me I was yours
Only to act out a game that I did not know
Who am I, who am I anymore

Who am I, who are you, what are we anymore
Just a darkness in my life like a hole in the floor

Won't you take it all away and I'll take mine to the lord
The angels may fall but never close enough to let me
soar

The eagles are flying, the crows are dying I guess I'll
jump quick
Just to see if I still have a chance to live
I play around and around I went for the circles grows
old
I guess I'm just another square in this circled world that
we call home
Who am I, who am I anymore

Who am I, who are you, what are we anymore
Just a darkness in my life like a hole in the floor

Won't you take it all away and I'll take mine to the lord
The angels may fall but never close enough to go in my
head

Who am I, who are you, what are we anymore
Just a darkness in my life like a hole in the floor

Won't you take it all away and I'll take mine to the lord
The angels may fall but never close enough to let me
soar
