Holding on to what isn't there
Trying to find my place
Can anyone see what's really me
Behind a smile, behind this face
Broken, struggling, in the dark
Oh just to stay onboard

But the only thing saving me, is your love
Loving you is saving me

Won't you take me from the clouds buried in grey
All the colors are mixing in my head
I can't see which way
Only see you out of thousands coming my way
You're all I want to see
All I want to touch and feel in every way

Turning in the breeze, never leaving this
Never hard to understand
Seems everyone around is free
It seems like everything just tick-tocks away

Falling with no wings to fly
Like an angel that's lost her way
Now the only thing saving me, is your love
Loving you is saving me

Won't you take me from the clouds buried in grey
All the colors are mixing in my head
I can't see which way
Only see you out of thousands coming my way
You're all I want to see
All I want to touch and feel in every way

Loving you, loving you, is saving me
Loving you, loving you, is saving me

[guitar]

You take me away
In the dark and hide me away
Singn' now, hold your head

Until you die love, and buried beneath your grave
Came from inside, burst in your flames
Sin forgive me while I run
I run, sweet love, take me away
Loving you is saving me
Loving you, loving you, is saving me
