It isn't likely that we are here today, somewhere else
This place is cold, burnin world should know, who
This place is like I never knew
They're pouring glue in all our shoes
They're takin hacksaws
Cookin black bra's
Turnin light to the night of day

It's most likely that we are there today, standin tall
This place is life, burnin world burn out, to
This place is like I never knew
They're pourin glue in all our shoes
They're takin hacksaws
Cookin black bra's
Turnin light to the night of day
