Well I will get to do the blues just to catch the truth  
Got turned a brutal battered dead eye  
I'll be walkin down the road  
Just to catch my soul  
I hope this sound will keep me alive

Only us fools, can be one  
Only us fools, can get something done  
Only us fools, give life to what we feel

Well I will follow you to lose if you make the news  
Cause your the one that started alright  
When you think there is no hope I'll throw you a rope  
Cause that's the logical state of mind  
We'll never catch a clue with our hopes all glued  
So naturally we hope for a lie  
We will speak as they spoke as we hit the dope  
And turn around to the other side

Only us fools, can be one  
Only us fools, can get something done  
Only us fools, give life to what we feel

Fools...  
Fools...
