I don't ever wanna go to sleep, I just wanna keep on
groovin
I'll take anything that you won't keep, anything that
keeps me movin
Ate all the stars above my head, that's why I'm
rockin the moon eyes
While all you slackers are in bed I'm still kickin by
sunrise

Melting lights (Melting lights!) off the wall I think I'm
losing my mind
Y'all Melting lights (Melting lights!) off the wall I think
I'm losing my
Mind y'all

Came to in the middle of my peak, now it's time to
wander
Movin to the rhythm of my feet leaves more time to
ponder
Kicked the day off with Luce and Mary Jane, got me
feelin too fine
Bumped into some Ketamoliceine, washed it down with
moonshine

Melting lights (Melting lights!) off the wall I think I'm
losing my mind
Y'all
Melting lights (Melting lights!) off the wall I think I'm
losing my mind
Y'all
Melting lights (Melting lights!) off the wall I think I'm
losing my mind
Y'all
Melting lights (Melting lights!) off the wall I think I'm
losing my mind
Y'all
