Chorus:

My ults a killing blow  
When your hp is running low  
charm and orb then down you go o ooo  
when you get ganked by cho  
Use fox fire and follow through  
This spirit rush was meant for you  
I'm not OP im just really pro

PlentaKill baby!

If I was just another caster buying dorans rings  
Would you build me and play me like every other  
champ?  
If I asked you to try a build, would you consider that?  
Like get a deathcap early, skip the rings, and get a hat  
Furthermore, I confess my guilt for falsely stealing blue  
It's just the last game i was in i did it all for you  
I choose to, choose to, choose to, be a little mean  
But in the end all i do is best for the team.

If I could only start a fight and make you understand  
I'd do some damage jumpin' in and taunt the other  
brand  
Just showing you my orb of death, taking your final  
breath  
And know my ults a killing blow that does you worse  
than meth.

Chorus

Oh oh oh oh, oh oh oh oh im just really pro  
Oh oh oh oh Im not OP im just really pro

Let's go!

If I was a mediocre AP carry like LeBlanc (remember  
them?)  
Wuju help protect my stacks no matter where I walk  
Would you buy a Rylai's Scepter instead of a Will  
So I can lead my teammates to a PlentaKill  
And all I ask is that you help cc the other team  
With all your stuns and snares and taunts and then  
morganas beam

Appreciate every buff that you let me take  
Im gonna show you that I love you that im not a fake.

I think i finally found a fight to make you understand  
I do some damage jumpin' in and taunt the other brand  
Just showing you my orb of death, taking your final  
breath  
And know my ults a killing blow that does you worse  
than crack.

Chorus

Oh oh oh oh, oh oh oh oh im just really pro  
Oh oh oh oh Im not OP im just really pro

[Bridge:]

I only hope you'll call all your M.I.A's (call M.I.A.'s)  
Because good ganks can be so hard to escape (hard to  
escape)  
So hold your lane and let me know when you can (know  
when you can)  
Cause I don't wanna lose to gankers again

Chorus

Oh oh oh oh, oh oh oh oh im just really pro  
Oh oh oh oh Im not OP im just really pro
