Where do you come from?
You got class and poise and you know what you want
It's such a turn on
You got tone in your voice so you never say it wrong

Just keep moving on
You got a rattle in your hips like you're dancing in a
storm

I come rushing in
To take you under and drown you in my arms
Yeah, I surrender
To your beating heart
I take you under and drown you in my arms

I thought you were leaving
You took hold of my hand and lead me astray
You're such a turn on
If you know what you want, it never takes too long

Just keep moving on
You got a rattle in your hips like you're dancing in a
storm

I come rushing in
To take you under and drown you in my arms
Yeah, I surrender
To your beating heart
I take you under and drown you in my arms

Just keep moving on
You got a rattle in your hips like you're dancing in a
storm

I come rushing in
To take you under and drown you in my arms
Yeah, I surrender
To your beating heart
I take you under and drown you in my arms
