Verse:

Tonight would've been better with you by my side
And I guess it's all a part of the fight.
The wasted time that we've been through held me so
tight
And It'll cut me through like a knife

If there's a way to make you mine even for a day
I'd give anything away from me... Hey...
Just together hand in hand and another sunset
That's all I'm asking to make things right

Bridge:

But now it's hard to be in the majority of time
To keep me occupied.
Cause' all the time you cross my mind
So, how would I survive?

Chorus:

Well... I...
Need you here no doubt
I'd down on my knees on ground
Cause' it's just nice to have you around
I know how stupid it sounds
But what makes things worse is knowing that
You won't believe me and
No chance before we... Die...
But there's no lie tonight
I'll simply wish to hold your hand
To make you see... that's how I feel

That's how I feel X3
Why can't you see?
