Nothing seems to be like before
Now that you don't hang around no more
I look round me so many things have changed
My whole world seems so disarranged without you oh...
It's so different now

Every songbird's song sounds out of tune
Somehow flowers have lost their sweet perfume
Mister moonlight doesn't shine so bright
There doesn't seem so many stars at night without you
oh...
It's so different now

Wishing that I could forget you
wishing that I'd never met you
wishing that I'd never let you go, oh oh oh...

Every songbird's song sounds out of tune
Somehow flowers have lost their sweet perfume
Mister moonlight doesn't shine so bright
There doesn't seem so many stars at night without you
oh...
It's so different now

It's so different now x 3
