### "Happy Be Fine"

Visit "[Happy Be Fine](#)" on MotoLyrics.com

I need some time to think about my life without you  
To think about my life without you  
To think about my life without you  
I need some time to think about my life without you

I need some time to think about my life without you  
It seems that we'd be fine  
But I know when I leave you'll die

I need some time to think about my life without you  
To think about my life without you  
To think about my life without you  
I need some time to think about my life without you

The hardest part is knowing I'm happy  
I'm on the whole again knowing I'm happy

It seems that we'd be fine  
But I know when I leave we'll die

I need some time to think about my life without you  
The hardest part is knowing I'm happy  
I'm on the whole again knowing I'm happy
