In these little moments, get your cards out, I am
waiting
In these little moments, lay your cards out, I am waiting
By the waterside summer wading in sunder, girl get
your head right
By the waterside, summer wading, get your head right

In these little moments, get your cards out, I am
waiting
In these little moments, get your cards out, I am
waiting
By the waterside summer wading in sunder, girl get
your head right
By the waterside summer wading in sunder, girl get
your head right

In these little moments, lay your cards out, I am waiting
In these little moments, lay your cards out, I am waiting
By the waterside summer wading in sunder, get your
head right
By the waterside summer wading in sunder, girl get
your head right
Get your head right

Girl, hmmm get your head right I'm waiting
Girl, get your head right, get your head right
Girl, get your head right, get your head right
Girl, get your head right, I am waiting
I am waiting
