She don't mind where my dirty mouth has been  
She'll just wash it out with soap again  
I asked her why was she slummin' with me  
She said, "just to have you in my pussy"  
She don't mind if my brain don't work too good  
I'm missing some parts under the hood  
I told her I don't like the way her pussy tastes  
She said, "why?" and she sat on my face  
I only get her on the egg hunting days  
Her other lovers get her on the hairy dessert days  
She'll stand at my working class slut event  
She'll just improve before it began  
I asked her why am I slithering with her skin  
She said, "you better get first aid for that thing"  
I only get her on the egg hunting days  
Her other lovers get her on the hairy dessert days
