Color

You are the missing color
You are, my favorite flavor
Color and warmth it's all I ever asked for

You're like a trembling quiver
You are, my only elevator
Uncontrollable spasm it's all I ever asked for

But beside
I can't deny
I feel some real emotions
But beside
I can't deny
You left an empty ocean

You are so cold cold cold cold blooded
So cold, just no no soul
You are so cold cold cold cold blooded
So cold, just no no soul

You're like a sharp engraver
Your bite, burns such a flavor
Color and warmth it's all I ever asked for

You were an unsecured floor
You stare, at falling columns
An open sore it's all you ever left for me

But beside
I can't deny
I feel some real emotions
But beside
I can't deny
You left an empty ocean

We come from bliss, those colors blend well
We come from bliss, and we jump to dead ends

You are so cold cold cold cold blooded
So cold, just no no soul

You are so cold cold cold cold blooded
So cold, just no no soul
