

Porcelain Raft "Shapeless & Gone"

In a strange kind of way, lifeless landscapes have so
much to say
And it's hard to sleep tonight, in my head buildings
are collapsing
I've never seen the desert before, to be close to
nothing

Shapeless and gone!

So good to know you are out there, so good to know
you still care
And the light seems more bright, even the air feels like
the first time
And i feel shapeless and gone!so close to nothing.

Shapeless and gone!

I've never seen the desert before, to be so close to
nothing
