Look what you became
Now you just want fame
You are not the same as you were yesterday
You gotta learn my dear
I donâ€™t want you here
And the things I hear
They make me want to disappear

I donâ€™t care about the
Clothes you wear how you
Dress your hair
Cause Iâ€™m running from you girl
I could care about the
Times we shared but Iâ€™m
Out of here
Yeah Iâ€™m running from you girl

Come out and be sincere
I have shed no tears
Come knocking at my door
Iâ€™ll show you what a bolt is for
You gotta learn my dear
I donâ€™t want you here
And the things I hear
They make me want to disappear

I donâ€™t I donâ€™t care, Care about you girl
I know I know, Iâ€™m running from you girl

Once our love was tame
Burning as a warming flame but
You broke off and took your cinders
To waste all that Iâ€™d remember
