So many options, choices what to do with them
Is your will as strong as iron or more like aluminum
It's the way we're consuming our souls with
consent
Like the need to war against everything makes sense,
tell me
When you stumble and the bottom seems bottomless
About time you meet change keep promises
That's why I only pray for knowledge like
Salomon's
If your Islamic move mountains like Mohammed did
I may struggle but I follow my heart follow my God
the sun, moon and stars passionate
I know the sign says hazardous aint having it
Walk in the light enjoy flight like all passengers
The more believe motivation increased, I'm patient
But not waiting see my time's not for wasting
But dedication revelation's revealed
I made it this far with dreaming never hesitated

Walk into the light
Give up all I have I even
Give up this life
For you to come back and shine on me

I walk into the light
Give up all I have I even
Give up this life
For you to come and shine your light on me

If I'm able to do it myself
Change the world like another notch on my belt
Felt redemption from all the obligations I would
mention
Avoiding situations that would put me in detention,
employed
But I was now at choice have corners to turn
I did live and learn voicing my concern
Have babies in this, praying angels be the babysitters
I'm more afraid of what's to come cause
everyday we witness
Fires and floods aint you tired of blood

Spilled and waist over nothing aint you tired to watch
And if itâ€™s really Godâ€™s plan I must redeem
Cause I donâ€™t wanna dream and wake up to find out
what it means
Not a soul without sin, no go without Him repent
My days as hypocrite came to an end
Itâ€™s righteousness life is like a ride
If I could only just pull over for a moment
Gather thoughts about atonement

Walk into the light
Give up all I have I even
Give up this life
For you to come back and shine on me

I walk into the light
Give up all I have I even
Give up this life
For you to come and shine your light on me

Shine your light on me
Shine your light on me
Shine your light on me
Shine your light on
Shine your light on me

Walk into the light
Give up all I have I even
Give up this life
For you to come back and shine on me

I walk into the light
Give up all I have I even
Give up this life
For you to come and shine your light on me

Walk into the light
Give up all I have I even
Give up this life
For you to come back and shine on me

Walk into the light
Give up this life
Walk into the light
Give up this life
Shine your light on me
