"Rendezvous Point"

Visit "[Rendezvous Point](#)" on MotoLyrics.com

I don't wanne argue about who's who's joint
All I know is mines always work at the rendezvous point
Europe is starving since they introduced a new coin
Try establish a people's army only a few would join
It's panic figures and devil digits, give us hell in
Shivers
Crossed many rivers built independent bridges
Whatever the face it's always been a black appearance
Try to raise a few bars, we almost cracked the ceiling
Original sound will attract millions, soon
There's something 'bout these walls they have me
Feeling doomed
Pressure on the chest head aching from thoughts
Would love to take it by force I can't escape it my
Lord
My destiny I can't abort follow the signs giving
I keep feeding of life as long my time ticking
I ain't going out without a fight, sure
At least that only goes when I know what I fight for
And that's life
Y'all.

If you don't try it don't get no better
We ain't got time we don't live forever
Where I'm gonna end
Where I'm gonna end my lord
If you don't try it don't get no better
We ain't got time we don't live forever
Where I'm gonna end
Where I'm gonna end my lord yeah

Many died scarred for life ended in rehab
They overdose trying to throw the party we had
We that magical episode you wanne recap
Living a God's dream don't envy nobody needs that
The ghetto ways still trying to leave that
Part of education know life's thorough I need bread
Most rush on it hit and think they can lean back
When your album's dropping the mics the only to
Feedback
I know it's sad when it's time to bring your lease back

Your whole world breaks down and your girl wants her
Keys back
See that when everything seems to be bad
Don't be glad time is money and yours relapsed
I been there too before we met
Now look at the Porsche I rep man of course I rep
But this game out here has got me bored to death
But I support those left now bring my chorus back

If you don't try it don't get no better
We ain't got time we don't live forever
Where I'm gonna end
Where I'm gonna end my lord
If you don't try it don't get no better
We ain't got time we don't live forever
Where I'm gonna end
Where I'm gonna end my lord yeah
