On the day that I met you, I knew, no doubt about it
That one day I'll have you lying with both my arms
around you
Cuz you and I, we are like 2 of a kind
It might take some time for me to say it but I'll bring
it into the light

I'm sure she knows yeah, she knows 4x

Excuse me can I have a minute of your time
Want to know you better make you mine
If you don't mind I'd love to know your name
Where you come from where you headed where you
staying
Now what you do for a living and can you cook
Tell me the page you on and we can do this by the book
I'm not gonna lie I've been influenced by the
look
Cuz everything fly got the right attitude
Plus you make me laugh haven't done it in a while
Big heart petite figure pretty eyes and smile
See I know we make a fit but you can try me out
Trial period expired got a child and vows
See I aint never doubt it but you never know next
Life bout change never know what to expect
It's never no regrets learn to live with mine
Besides you the greatest gift was time

On the day that I met you, I knew, no doubt about it
That one day I'll have you lying with both my arms
around you
Cuz you and I, we are like 2 of a kind
It might take some time for me to say it but I'll bring
it into the light

I'm sure she knows yeah, she knows 4x

Age don't matter the younger the more eager
She just got better like wine as my diva
In love I'm a strong believer, been showing
The hots since the moment I saw you been growing
We done been around to let out the innerchild

Nice food and good laughs what weâ€™ve been about
Light to my nights and my days alike
Like me you got a spirit that was raised to fight
Yeah we will cuz they still canâ€™t ignore we been
together ever since
Some said that we will never stand a chance, right
Must have been becuz they never had a man like
So convinced, win hearts by the landslide
Iâ€™m old enough to know Iâ€™m young enough to
hold her
Been a lot of places only one Iâ€™d like to show her
It be my heart let my guard go a little lower
Cuz she was parked in the wrong spot I had to tow her

On the day that I met you, I knew, no doubt about it
That one day Iâ€™ll have you lying with both my arms
around you
Cuz you and I, we are like 2 of a kind
It might take some time for me to say it but Iâ€™ll bring
it into the light

Iâ€™m sure she knows yeah, she knows 4x

She knows she knows 8x

On the day that I met you, I knew, no doubt about it
That one day Iâ€™ll have you lying with both my arms
around you
Cuz you and I, we are like 2 of a kind
It might take some time for me to say it but Iâ€™ll bring
it into the light
