

Postman "What A Feeling"

Visit "[What A Feeling](#)" on MotoLyrics.com

Had a good time yeah sure you had a real good time
I had a good time yeah sure you had a real good time
Had a good time yeah sure you had a real good time
Had a good time yeah with you

Wish I could take you back to 98 young players
Before the gold rush taking a place young players
Buying my first car without a licence
Before I knew what the value of light was
Before politics became a mess here
Is way before Harry Potter grew chest hair

No safari on Atari but Mac was still Apple
Is way back when MTV was still a music channel
Before the Levee broke, before Katrina,
Before Haiti, Thailand or Indonesia
When young people still had morals
Before the Doctor King dream became immortal,
change
When the towers would still stand
Before Idols and So you think you can dance
Before I saw what I could see right now
Before I know where I would be right now
Let's have a moment

Had a good time yeah sure you had a real good time
I Had a good time yeah sure you had a real good time
Had a good time yeah sure you had a real good time
Had a good time

Before I had an album for the press to criticize
Is when I saw the world with different eyes
The King of Pop was still alive, yes Hip hop was still
alive
Before I put an X in front of wife
Cause I remember when cable wasn't digital
When the industries condition wasn't critical
Before I knew stress
Before black Barbie dolls and Walt Disney had a black
princess
Before we lost the Godfather of Soul
Before Hussain did the running like Usain Bolt

Before the Euro, adults playing guitar hero
Before ego, smart phones replaced people
Yes we could meet and shake hands
Before the social networks and fake friends
Before I had 5 to raise
Before I even memorize the days
Let's look back

Had a good time yeah sure you had a real good time
I Had a good time yeah sure you had a real good time
Had a good time yeah sure you had a real good time
Had a good time

Had a good time yeah sure you had a real good time
I Had a good time yeah sure you had a real good time
I Had a good time yeah sure you had a real good time
Had a good time

Before I saw what I could see right now
Before I know where I would be right now
Before I had 5 to raise
Before I even memorize the days
Before I saw what I could see right now
Before I know where I would be right now
Before I had 5 to raise
Before I even memorize the days
Let's look back
