[Verse]

Kissing on your neck biting your bottom lips
Man I got you screaming and squealing like you a pig
Baby girl you like it I'm loving it cause I'm wanting it
And baby I told you whisper in your ear and told you
don't fight it
Cause I know that baby making faces expressions
I told you that I loved you and I know you got the
message
Cause baby I think that we can just do it
And you can just tell me that I do it like in doing
Cause you and I can go so much places
Cause baby I just love you and I love our conversations
Cause when I have you on my bed you will have me
saying that
I'll have you soak and wet
Cause I love you and you're amazing
Cause baby girl I'll never ever diss you
Cause I really really miss you
And when I see you I will just kiss you
And you know that I love you and I know that you love
me to
So listen to this song that i made for you

[Hook]

Kissing on your neck
Biting your bottom lip
Music is loud so I hope you hear it
Cause we have a sexual mixture
This is a love potion baby
This a love potion
Pulling on your hair
Scratching on your back
Music is love and I hope your hear that
Girl we have a sexual mixture
This is a love potion baby
This your love potion

[Verse]

I ain't trying to be cocky or nothing but you know that
ima brag
Treat you like groceries baby girl ima bag and your ex

man over here acting like a fag
Put you in a new Porsche or a new Jag
Ima be your first baby you gone to be my last
Like beyonce girl I'm the best you never had
I can be your future girl you can put him in the past
I just hope you understand that I'm trying to be your
man
Shawty got me falling like in leaning on a zan
Baby do it with no hands
Girl you got me in a trans
Since you summer got girl I can be your biggest fan
Tatted from her shoulder all the way to her hands
Shawty over there just popping like a can
If you wanna do it big baby girl you can
Cause you know that I'm your biggest fan
Like Megan that girl be good
I ain't talking last names but I know you understood
Take you the campfire baby girl I can take you all the
way back to the woods
I ain't talking bout trees when I say I give you wood
Shawty a lol classy with a lil bit of hood
An you know what
That's grade a I guess lil mama just be so good
I ain't talking red pills when I say slow motion
Shawty a lil bad she can get a lil potion
Sitting over the fire with the marshmallows roasting
Ima keep real baby ain't no sugar coating
Ha yeah bae you know what it is
Shawty fresher than a new hat out of lids
Shawty wanna talk money I don't wanna talk biz
We gone talk about is baby and that's it
