[Intro]

Uh Yeah, its Prepp

Well baby im like lately I been in my feelings

And like I been thinking bout what we had

Us what we could've been

Seems like I can't let you go you know or anything like that

I just want to say I LOVE YOU

[Hook]

Love goes up then goes down Im needing you right now

I'm Needing You Now

I say love goes up then goes down

I'm here alone sitting right here and I'm needing you

Now

I'm Needing You Now

[Verse 1]

If I told you how I feel would you feel the same

If I shed a couple tears baby would you feel my pain

And I know lately baby you been gone and I ain't been the same

And lately I been thinking you been running through my brain baby girl

And I said I changed

And I ain't even running no game

Baby girl you just a picture ima put you in my frame

Yeah uh and I said I just can't move on

Feeling like Kuzco im just trying to get my groove on

Uh and I can feel the change in the weather

I know love has its down and I can make it better

Baby me and you together that just sound better cause me and you together we can do whatever

Yeah and Im just asking for a second chance

I know I messed up the first time but this my chance

To do right and never do wrong

Cause I been missing you every since you been gone

[Verse 2]

Yeah And I need you here up in the summer  
Yeah I say salutes to my sister Summer  
Yeah cause you she always held me down when my  
head was getting hot and I was feeling like a clown  
Yeah and I called you my little pumpkin  
Yeah I say salutes to my sister Londynn  
Yeah cause she be your bestfriend me and you  
together we just ex friends  
Uh and I do not like the sound of that  
Baby girl Im a pilot so you know I be an acrobat  
If loves the highest peak baby lets go after that we in  
the next book where the chapters at  
Uh I say we went from this to that Uh and then we went  
from this to this  
Yeah and you know you the girl that I miss and when  
your friends around I hope you do not diss  
Cause ima show you off to the world  
Yeah you donâ€™t never have to worry about another  
girl  
Nah cause they cannot take your place  
And when they come up to me talking just get them all  
out my face  
Uh cause I really donâ€™t like that I sent you some  
message baby just write back  
Summer sent you a dm on twitter baby type back  
Cause I hope you gone like that
