[Intro]

I guess the times up I don't made so many mistakes I
mean dang I don't know what to say now I done lost her
and like and it feel like every time I do a song it be bout
love and on some real stuff I heard this and wanted to
share a tear

[Verse]

My boys asked what's wrong I said I'm cool when I'm
really not
When im without her I'm cold when Im with her so dang
hot
I'm boiling over like a stove with a pot
And I'm going on the other dudes are not
Sitting at home listening to rock maybe slipknot
And we split up now like them toes all in a flip flop
And we tick tock buzzer beater going down like a shot
clock
The other dude in the hole right now he just want to
block my shot
She told me leave go kick rocks like a kiddie in a
playground
Go in all that sandbox
Dang that hurt me
I did you really dirty
Made some mistakes in my life but baby that was me
being a flirt

[Talking]

Dang I ain't mean it like that

[Verse]

Baby say this a joke cause I learned my lesson
You were my one and only
My sent from heaven
My gods blessing
Whatever you call it
Baby girl I'm Washington like John wall
All I do is ball
But I don't even care about that
Without you in my life I don't even need all that.
Me without you is like the sky with blue the grass

without green the bloods without suuwooo
Dang what did I do
Where did I just confess
Baby girl you were the best had your name tatted on
my chest
Now I just gotta get that lasered off
Unless you come back to me baby then I keep the
things off
Like all the groupies ima leave them alone
Ima dedicate it to them hoes in this song
That I don't really love them all I need is you
You my one and only shawty like lil Wayne boo
Haha yeah remember he had that lil song
Reminiscing all the times I had you at my home
Thinking bout you daily
Thinking bout you daily
Thought i would grow up married you and we have a
baby

[Talking]

Now it's pain or pleasure can it get real worse I said we
use to fuss we use to cuss don't know what to do she
has moved on trying to dedicate it in this new song all
I'm doing is talking

[Verse]

I don't know what to do I can't even think
Baby without you girl all these other girls would never
wink
Cause like dang where did we go
I put on for you like a show
But I'm sad right now and I'm giving up
The times gone I'm livin it up
Don't want you to leave
I'm down on my knees
I'm crying out my soul saying please
Dang I'm out now
We going out like the lights down
Baby I'm a mouth piece just bite down
You can handle me if you want that's right now

[Talking]

And I miss you hope you miss me to kinda cried on this
track ain't know what to do bu it's okay cause ima move
on no not really baby
