It's tonight jade and you're ditching
Let's fire, watch the smoke rise up to the ceiling
We on fire, I just let your fire

So much fire in my dreams, can you see me?
Ain't nothing on... things, no
Can you feel me?
All I got is one light, one cigarette one pin just to write
All the times I sacrifice for all the...
Since the women who just listen just to keep the
future's bright

Oh yeah, forgive me for my sins,
She only want that wood if I'm missin...
Watch it fall, watch it fall
Hope that she don't hit my friends
They say love is blind,
I guess we all just pretend Rachel,
And all I see is us finish lines in our mansions
Ain't no time for giving up,
None define ain't enough, fast tray for their...
Yeah we light it and we're smoking that's a diamond
in the rough

It's tonight jade and you're ditching
Let's fire, watch the smoke rise up to the ceiling
We on fire, fire, I just let your fire

I'm nothing what they sayin,
Make no place we couldn't be
Ain't no way I'm listening to anything they telling me
Baby we're on fire, raise your light and when I drive,
And we gonna let it burn until they call the cops yeah
Their shots shots shots, for the things that they
couldn't see
All the times we struggle with,
Our past do... , f*ck you if you had me,
This is my language, love me if you have me,
This is what I'm sayin, uh

Forgive me for my sins,

First they love you then they hate you then they love
you all again
See I swag hate trains, as much as fake friends,
And this stupid politicians who have just... my past ten
Ray Charles, but all I see is us,
Finish lines in our mansions ain't no time for giving
up,
None define ain't enough, fast tray for their...
Yeah we light it and we're smoking that's a diamond
in the rough

It's tonight jade and you're ditching
Let's fire, watch the smoke rise up to the ceiling
We on fire, fire, I just let your fire

It's tonight jade and you're ditching
Watching burning down, watching burning down.
Watching burning down, watching burning down
