"In Love With A Dream"

Visit "[In Love With A Dream](#)" on MotoLyrics.com

The time is bleeding into eternity
You can't make a long kiss when you don't breathe
And time is against me, but harm I can't leave
And if you refuse to be in touch with me
Please, please let me be in love with my dream oh oh
oh

And I dreamed of flowers searching for bees
And sometimes my whisky was drinking me
I guess that you've heard my, my heartbeat to the
cloud
Telling you I'll be there as long as you care
If you doubt, let yourself be in love with my dream

And each dust the moon is eating the sun
And each time I wonder where my dreams have gone
Oh I wish, I wish I could be, I could be in love with reality

Oh, I guess that you've heard my, my heartbeat to the
cloud
Telling you I'll be there as long as you care
If you doubt, let yourself be in love with my dream

Oh I wish, I wish I could be, I could be in love with reality
