verse 1.

spend my time murdering verses,
murdering lyricists emergency nurses,
so whatever the cases where ever the place is,
i pick on the weak species so they call me a racist,
but u dont know what is like to be ahead in huge paces,
am an idol to society so i hear the praises,
except from these faggots that say he is,
a homophobic so calmn your gay hormones in places,
even better turn straight by holding your dick with
some braces,
now that i covered bases lets get off the basics,
i just put ur whole weeks of work and for me its just day
six,
so dont make me get physical cause i reload more than
part two of the matrix,
and big talk only comes when no one's down,
but at the sound of the gun,
you do like a track meet and start to run,
so dont act hard cause i fight wit rhymes,
shoot ur brains out and tell the cops u lost ur mind,
am lyrical talent so i challenge u literal,
its safe to say this is one of god's miracle,
cause when fans hear my record they go to church
praying for more,
am not big time yet but i got one foot in the door,
kicking it down chocking the game making em drown,
am the knew crowned king so try to d-throw me,
u wish u had hits like this so u try to be me or at least
clone me,
c'mon

chorus

imma rider, rider,
the worlds provider,
u shyne bright but i shyne brighter,
so check your girl cause am already inside her,

imma rider,rider,
the worlds provider,

u shyne bright but i shyne brighter,
so check your girl cause am already inside,

so give me some more, give me some more, give me
some more,

verse 2,
i take real actions so am hearing beef,
one track is all i need cause my talkin is brief,
say what u gotta say and hear comes death,
best advice u'll ever hear is try saving your breath,
u try to knock me off my spot but u only a challenger,
check my sales, my poster move more untis than
calenders,
while u go through daily struggles am on an upward
movement,
so i gave a ring to tim allen and he gave me a home
improvement,
now, i understand jealousy comes with the package,
so i reach in my waste and am pulling out gadgets,
finger on a trigger u now know u r fair game,
so u look more nervous than new yorkers in air planes,
u should have never test me i'll drop u back like
mcnair's game,
thats the reason for this talk about me being a rare
gem,
man, i dont take nothing for granted so dont slow down
or delay,
cause i still got dreams to accomplish like mtv made,
but back when i didnt have money for no rent,
the scence was no kodak moment,
but now that everyting is here i put the guns and knives
down,
cause i got easy access to the finer things in life now,
so dont push devil outta me cause quickly i murder u
literally,
i wont make it painfull and thats just outta courtesy,
but as heavy as the burden be,
i carry it thankfully,
cause if not all those digits in my bank account would
just be make believe,
but dont push your luck cause i might just snap,
i wont even repeat myself this shits a rap,

chorus,

imma rider, rider,
the worlds provider,
u shyne bright but i shyne brighter,
so check your girl cause im alreay inside her,

imma rider, rider,
the worlds provider,
u shynne bright but i shyne brighter,
so check your girl cause am already inside her,

so give so more, give me some more, give me some
more,

verse 3,
when i couldnt stand on my on feet and was about to
fall,
there was no hand reached out nowhere to lean
involved,
no freinds in sight no help at all,
so i had to make something outta nothing like dante
hall,
never get a writers block so i dont hit no walls,
u cant crawl urself outta this one especially if u aint go
no claws at all,
but in all the lines i drop dont leave u smiling,
thats why i got more beef with rappers than bill o'riley,
so dont take it lightly say please and pardon,
before your face ends up in the back of milk cartons,
now ya can kneel and start to praise me,
and for ya that hate me, the shit dont face me,
u try to make me disapear but u cant erase me,
cause am just starting so u have to embrace me,
the way i put words together u get a certain feel,
am ahead of the game they way i play the field,
cause i out there take heads of the way am deckin,
i do what i do well and there is no regretin,
cause girl love it even though am violent,
i specialize in kickboxing and i aint from thailand,
still i get specially attention so i ask for seconds,
cause i get more love below than one of andres record,

HEAT!!!!
