Look up at the light of the stars in the night sky.  
Look up at the light of the stars in the night sky.  
Once, twice, the bell toll echoes, far and wide in the  
heart.  
Like in a story, stellar droplets fall and inside narrow  
tracks are built.  
In time, the times will move.  
The drifting stars will quietly move.  
Close your eyes, listen closely..."why?"  
G-O-O-D Bye!  
Release the light.  
Don't give up, be strong!  
Now let 'em out, until they reach someone.  
The light of Glory lies just beyond here, it's the story we  
all create together.  
Look up at the light of the stars in the night sky.  
The thoughts and wishes of the past will cross the  
ages, and arrive just as vividly.  
In your sparkling eyes, someone's scream is reflected,  
"Feelings on the wind, Today I'll live life to the fullest,  
too."  
Look up at the light of the stars in the night sky.  
The thoughts and wishes of the past will cross the  
ages, and arrive just as vividly.  
One day, our feelings will reach someone's heart, as  
well.  
Shine on!  
Like that star
