A friend in need is a friend in deed  
We heard it so many times  
But true friend is like sweet lemonade  
With sugar ,water and limes

The quality of a true friend is  
That heâ€™ll make u happy in gruesome situations  
But it is very difficult to find friend like this  
In all around the world and nation

This world is extremely cruel  
And friends are made on the basis of rich and poor  
If I got money, Iâ€™ll be your friend forever  
And if you donâ€™t have money then donâ€™t show  
your face to me ever

But a true friend never watches over money  
He is as sweet as sweet in honey  
But earning a true friend is very difficult  
You also have to be good and gentle
