Here are the lyrics to Break Free. Learn them for tonight:

Who are you helping?
Who will you save?
You're betraying yourself.
Individuality is a virtue
Don't give it away.

Don't put a price on what is yours.
Don't put a price on what is yours.
Individuality is a virtue don't give it away.

Show the world all your talents.
Break free! Break free (x4)

Take this moment for yourself.
Every moment is a gift.
Life can end faster than it started;
Don't waste it selling out.

Don't sink to
Their level.
You are better than that.
Fill your heart; with, With Joy

Time spent hating is wasted.
It is so much easier
To Respect the humble than those who
Live in bitterness.

Take this moment for yourself.
Every moment is a gift.
Life can end faster than it started;
Don't waste it selling out.

This is your
One chance to
Make a name
For yourself.

You may not become the man
Who walks around [with] a million fans.
But that's not the point of the band
Do what you love.

This is where you let it go,
Because you know.
Soon the fakers gonna show.
Which way you gonna go?

This is where you the it go,
(You can't turn back.)
Because you know.
Soon the fakers gonna show
(so choose your path)
Which way you gonna go?
(Never forget
The choice is yours
But you must live with yourself.) (x2)
