Site-seeing you more than I ever imagined
Scream-singing most of this music for you now
As though to hide the obvious choice
That you are there and I am nowhere
Systematically gypsying my way across America slowly
Wondering why wandering with so much conviction
Is making me more tired than bards ever bargained for
Drunkenly as these soul-deals are often made
The truth of what makes me strong alone and weak
Together sand-stoning the edges of this picture of you
So sharp and spread out in several rooms
I imagine you are shaming me in this car
Traveling circus I am so inside wide-eyed
Chasing chalkdustcould blind
Asking risk with me please
Question only that which holds you
Too close to this fire to let you breathe
And leave the rest to summer's death
As forests burn and creatures die
So angels form and spirits rise and
Phoenix-like I will prize what is
Most patiently waited for
Eyes closed I pray for more

Time to be side by side and laughing
Childlike asleep and singing
Time to be side by side and laughing
Childlike asleep and singing
