So empty and cold inside  
Too strong to feel  
Too weak to cry  
Empty inside  
Nothing left  
And the daylight is fading

Just for a short time then I'll be back  
To hold you hand and whisper that  
I love you softly in your ear  
To hold you tightly throughout the year  
Until the summer when I leave  
All the sunshine makes me grieve  
For all the things we used to do  
All my love remains with you

So empty and cold inside  
Too strong to feel  
Too weak to cry  
Empty inside  
Nothing left  
And the daylight is fading

Just because I have to go  
It doesn't mean you should no  
Just how much I care for you  
And that my love is always true  
I will miss you lots everyday  
I will call you up just to say  
I need you now to make me smile  
And to hold my hand just for a while

So empty and cold inside  
Too strong to feel  
Too weak to cry  
Empty inside  
Nothing left  
And the daylight is fading

The daylights fading  
The night is coming in

That's the worst time.  
The pain within  
I feel like ice  
Im so cold inside  
Hypnotised  
Its so hard to feel  
When your paralyzed by pain  
Just to hear you name  
Make me whole again  
Just to see you smile  
Hold me close a while  
Just to kiss your lips  
With your hands on my hips  
Make me whole again  
Take away the pain
