And yo I crave the feeling of my feet
Walking on the heat down Avalon Street
The concretes crunching underneath
My trucks are tweaked
And my lady's Santa Cruz so her hairs all bleached
I know our reach
Cuz what we preach is what we learn
And what we teach is that our love is always given when
it's earned
Concerned, so we hang out with everyone we see
And give 'em courage to grow and some music to
breathe
You got me thinkin'

Where you at girl?
Yeah I see you
Where you at girl?
Girl we're kickin' back, live and laugh, you trying to
hang out?
We got no worries the sun came out
Ain't no hurry let it all hang out
My dudes think dirty when the girls lay out
My dudes think dirty when the girls lay out
No there ain't no worries
No there ain't no worries
No there ain't no worries
There ain't no worries when we all hang out, hang out

Wrap the grip tape on your board and stick with me
Make a short stop at the Kwik-E-Mart down the street
Tank tops all day, we got Rainbows on our feet
And my girls all tatted up
And my girls all tatted up

Where you at girl?
Yeah I see you
Where you at girl?
Girl you're stupid fine, we're losin' time, I'm trying to
hang out
We got no worries the sun came out
Ain't no hurry let it all hang out

My dudes think dirty when the girls lay out
My dudes think dirty when the girls lay out
No there ain't no worries
No there ain't no worries
No there ain't no worries
There ain't no worries when we all hang out, hang out

Sun came out
Sun came out

We got no worries the sun came out
Ain't no hurry let it all hang out
My dudes think dirty when the girls lay out
My dudes think dirty when the girls lay out
No there ain't no worries
No there ain't no worries
No there ain't no worries
There ain't no worries when we all hang out, hang out

Yo man, grab Jess, dude
She don't know anything about that cutty spot
