It's my heart,  
It's my heart  
that's nearly burstin' out,  
in the night-  
in the way you hold the light.  
Please don't say you love me now.  
Doesn't change i know  
you're gone somehow,  
Even as i wake.

Alarm 1-she left you on the run  
Alarm 2-it was you

It's my head,  
it's my head  
that's nearly burstin' in,  
From the weight  
of my trouble plated sin.  
It's the one thing that still is  
unbroken by your exodus-  
I cannot begin  
to begin again

Alarm 1-she left you on the run  
Alarm 2-it was you  
Alarm 1-she left you on the run  
Alarm 2-it was you

Sun in the night  
Sun in the night
