Did she get tired or did she just go crazy?  
With every passing frame, every shade of grey  
You got a starring role but the plot line that they never  
show you  
Its you are playing, you are playing you now

And she, she wanted you in her movie  
Live forever never die  
She wanted you in her movie  
Love is more than sad goodbyes and making girls cry,  
Making girls cry (making girls cry)

Did he forget his lines or did he just get lazy?  
Now that the damsel's saved and there is no  
curtain call  
And you got a starring role but the scenes that they  
never show you  
While you were rescuing her, it was you she was saving

And she, she wanted you in her movie  
Live forever never die  
She wanted you in her movie  
Love is more than sad goodbyes and making girls cry  
Making girls cry, making girls cry

More than a promise, more than a golden ring  
More than the romance and poetic lines  
More than a movie  
And making girls cry  
Making girls cry

And she, she wanted you in her movie  
Live forever never die  
She wanted you in her movie  
Gold and silver black and white

She wanted you in her movie  
But love is more than sad goodbyes and making girls  
cry.
