Hidden beneath
Any plans you made
Always, someone keeps getting in the way

It's you, and it's m
Shipwrecked and lost at sea
In the dark, in the deep
Silently, we keep slipping

Reach out, reach out for me
Pull me from the wreckage I'll pull you from the sea
Feel life's weight and groove
We keep each other movin'
Keep each other groovin'

Go on tonight
Go on and leave me tonight
Always someone come back around in the light
Pitiful daylight
Robs our dignity and fight
Still its dark and its deep
Silently, we are slipping

Reach out, reach out for me
Pull me from the wreckage I'll pull you from the sea
Feel life's weight and groove
We keep each other movin'
Keep each other groovin'

To the beat I will carry you
Can you carry me?

Reach out, I know that you can
Let everything else go just to help me stand
Feel life's weight and groove
We keep each other movin'
Keep each other groovin'
