Chorus

I wanna do everything to you (x2)
Lick you from your head to your feet
Sex all over me, Ooh
Working on your body right
Everything to you

Verse

Baby, I love it when you breathe all over my neck
Ooh Baby, I love it when you get so wet
When you talk to me dirty it goes down my back
Get real into it make you want it bad
Cuz we gon' get into everything
With positions one two three

Pre-Chorus

Come on over here now
Whisper in my ear now
Tell me what you want
& I'll give it to you right now

Missionary, Butterfly, Reverse Cowgirl
Lotus, 69, I'm in your world

Come on over here now
Whisper in my ear now
Tell me what you want
& I'll give it to you right now

We got all night for me to put you on some different
things
But right now it's all on you, baby tell me what you want

Chorus

I wanna do everything to you (x2)
Lick you from your head to your feet
Sex all over me, Ooh
Working on your body right
Everything to you

Verse

(Oh) I'm liking all the sounds we making
(Oh) Down with all this love we making
(Oh) When you get on top you ain't gon' never wanna
stop baby Ooh

I could get behind you, do it from the side too
Girl it's all about you I'll do whatever you want to
(I Like) When you screaming how much you want it
(I Like) When you whisper how much you love it

Pre-Chorus

Come on over here now
Whisper in my ear now
Tell me what you want
& I'll give it to you right now

Missionary, Butterfly, Reverse Cowgirl
Lotus, 69, I'm in your world

Come on over here now
Whisper in my ear now
Tell me what you want
& I'll give it to you right now

We got all night for me to put you on some different
things
But right now it's all on you, baby tell me what you want
